

2nd International Radiocarbon in the Environment Conference

3 –7 July, 2017

Debrecen, Hungary

SECOND CIRCULAR

This is the second circular to announce the 2nd International Radiocarbon in the Environment Conference (REII-2017) to take place between 3-7 July, 2017, in the Hungarian Academy of Sciences, Debrecen (Hungary).

Topics

The scientific scope of the conference follows most of the well-received features of the previous Radiocarbon in the Environment Conference:

Radiocarbon in

- marine environment
- freshwater environment (including groundwater and karstic systems)
- terrestrial environment (tree rings, macrofossils, sediments, animals, etc.)
- in-situ isotope applications (in rocks and meteorites)
- the atmosphere (CO₂ and other trace gases, aerosol)
- past and recent climate studies (regional and global changes)
- anthropogenic (fossil and nuclear) pollution, (bio)fuels

Related studies will also be welcome, as well as stable isotopes and a session on development and progress in techniques, methods and statistical tools.

Venue

The conference will be held in the city of Debrecen, in eastern Hungary. Debrecen is located on the great Hungarian plain (or “Puszta”) and is a city of 250,000 inhabitants. Debrecen has a University, a thriving center and a relaxed environment.

Our conference will be held at the excellent 4-star Hotel Aquaticum (<http://hotel.aquaticum.hu/en/home/>), which is located in the beautiful Great Forest (Nagyerdő) on the northern edge of Debrecen. The forest is next to the University area and a park-like environment. The banquet will be held in the Great Hall of the University of Debrecen.

Accommodation

Special rates for conference participants are offered in few hotels. Booking will be available through conference website: <http://c14env2017.atomki.mta.hu/accomodation>.
